

Invaluable Jewellery Insurance

Losing a piece of jewellery can be traumatic, but the implications of losing something precious that's not properly insured can make the pain even worse.

As Scotland's leading independent insurance brokers, we use our expertise to advise on comprehensive ways of protecting what is most important to you.

We have developed a jewellery insurance policy to protect your valuable items particularly if you don't have any other contents insurance or it is not possible to insure the jewellery under your household policy due to the high value.

Features of this policy:

- Worldwide cover. No limit on the number of trips made abroad.
- Protection against accidental loss, accidental damage and theft.
- Cover is provided whilst the jewellery is being worn, being carried by you by hand or about your person or deposited in a locked approved safe.
- Use your preferred jeweller for repair or replacement.
- £50 excess for claims.
- No cover for watches.
